

LISSA&Co

Let's make a home
that feels like you.

What turnkey means with us

You hand us the home. We deliver it finished, furnished, and ready to live in – every room, down to the last detail.

- **Full design & space planning**, room by room
- **Furniture, lighting, rugs, art, and accessories** – selected, sourced, and procured
- **Window treatments, wall finishes, and the layered details** that pull a room together
- **Delivery, installation, and final styling** – down to the books on the table
- **One point of contact**, managing all of it from first conversation to final layer

A furnished home shows better and sells faster – and your buyer walks into a completed home instead of a year of decisions. Discreet, white-glove, and on your timeline.

A home with
intention.

Interior design and turnkey furnishing for a home that feels
unmistakably yours.

Buy the house. We'll make it home.

One point of view carried across every room, every selection, and every final layer, so your home feels complete from the moment you arrive.

From first conversation to final layer.

A full-scope partnership for a newly purchased or newly built home: designed, furnished, installed, and ready to live in.

01 Complete design development

Every room mapped from floor plan through final finish, with one considered direction carried across the whole home.

02 Sourcing and procurement

Furniture, lighting, art, and objects selected, ordered, and tracked, so nothing falls to you to chase down.

03 Installation and final styling

The Studio places and styles every last layer. You walk into a home that is already resolved.

Collected over time. Complete from day one.
